

Three Way Club Lambs

Our current flock was started with a foundation of ewes from High Hill Farm, GT Dorsets, Greene Club Lambs, M & K Club Lambs and Harms Show Lambs. We were able to purchase “Bobcat” from High Hill Farm as our senior sire and a Greene x I-Beam bred yearling from Greene Club Lambs as our junior sire. Bobcat is the sire of I-Beam and Lt. Dan at High Hill Farm. These genetics have produced outstanding results in the showing at all levels.

Providing quality lambs for youth is our priority. We will be offering lambs in 2010 through private treaty and a few public sales. We will also provide an incentive program for youth. In addition to high quality black faced lambs, we will also be offering a few brockle lambs out of Bobcat. We are proud sponsors of the Michigan Club Lamb Association Youth Challenge and MCLA Born Program.

The following ewes are a part of our flock:

**Michigan State Fair
Champion Wether Ewe**
